WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut 1,250 of 50 webbing; heat-seal both ends.
Sew a pair of D-rings into one end: 60 fold, box-and-cross stitch.
Passes round the module and under the batten, in a bay between frames, outboard of the module through the gap at the planks.
Close: tail up through both rings, back over one, pull tight.
Tuck the tail; it must not slip when pulled by hand.
